SUMMARY

AI enthusiast fascinated by the algorithms and architectures that make intelligent systems. Passionate about bringing that curiosity into native iOS development — building apps that feel smart, fast, and intuitive.

EDUCATION

BINUS University

Bachelor's Degree in Computer Science *GPA: 3.91*

Alam Sutera, Tangerang

Sep 2023 – Expected Mar 2027

WORK EXPERIENCE

Apple Developer Academy @BINUS, Tangerang

Junior iOS Developer

BSD, Tangerang

Mar 2026 – Dec 2026

- Developed native iOS applications using SwiftUI and UIKit Frameworks, while exploring diverse roles including project management and UI/UX design.

Software Laboratory Center BINUS

Part-Time Software Laboratory Assistant

Alam Sutera, Tangerang

Feb 2025 – Feb 2026

- Taught 100+ students each semester in various subjects such as Algorithm and Programming, Data Structures, Pattern Software Design, and Framework Layer Architecture. Create case studies, grade assignments, and assist with exam proctoring.

PROJECTS

Alarme! – *SwiftUI, UIKit, ARKit, AlarmKit, RealityKit, AVFoundation*

[AppStore](#)

A native iOS application that transforms the morning wake-up experience by integrating augmented reality (AR) to create engaging, interactive alarm interactions.

Zenva – *Next.js, Tailwind CSS, FastAPI, MediaPipe, OpenCV, Scikit-Learn*

[Website](#)

An AI-powered yoga assistant designed to provide real-time pose detection and corrective feedback using deep learning.

Iris – *Flutter, Firebase, YOLOv11, Google Cloud APIs*

[GitHub](#)

A mobile app that helps visually impaired and elders navigate their surroundings using YOLOv11 and Google Cloud Services.

Cura – *React, Tailwind CSS, Motoko, Flask, Fetch.ai agents*

[GitHub](#)

A decentralized intelligent healthcare ecosystem designed for modern hospitals. It utilizes a network of Fetch.ai agents to coordinate care, manage prescriptions, and secure sensitive medical data.

Sehatin – *Java, XML, Firebase*

[GitHub](#)

A native Android health-tech solution focused on maternal and child welfare (e-posyandu).

SKILLS

Languages	Swift, C, Python, Java
AI/ML	PyTorch, TensorFlow, Scikit-Learn, Hugging Face, OpenCV, Numpy, Pandas
Frameworks	SwiftUI, UIKit, React, Next.js, Tailwind CSS, Flask
Tools	Firebase, Git, Github, Tableau, Visual Paradigm
Design	Figma, Blender

AWARDS AND CERTIFICATIONS

- AI-900: Microsoft Azure AI Fundamentals** Mar 2025
Demonstrated foundational knowledge of ML, AI concepts, and Azure cognitive services.
- Semi-finalist of IOFest Web Development National Competition** Jun 2025
Developed a transparent budget-tracking web app for NGOs and government organizations, Anggar.in, enabling easy recording, monitoring, and public verification of financial transactions.
- 2nd place in TechFest UI/UX Competition** Jul 2024
Designed and prototyped SpacePen, a space-themed mobile pen pal app featuring seamless user flows, interactive wireframes, and high-fidelity UI/UX designs.
- Finalist in Microsoft AI for Accessibility Hackathon x SoCS** Jun 2024
Developed AIFI, a video conferencing web app with real-time emotion recognition and conversation summarization, designed to support individuals with ASD in boosting employability.
